for large volumes and
the affordable WR-80

WR-400

WR-80

Durable, Reliable Coin Counting and Wrapping Automation

Glory's market leadership in wrappers is found in the design of the WR-80 and WR-400 products. With a design focus on ruggedness and durability, these wrappers deliver top performance day-in and day-out. The high-speed WR-400

counts large volume coins, and the smaller WR-80 is versatile for any size operation. As with all Glory products, both are backed by our extensive support and service network.

Superior Performance for Increased Productivity

Designed for high volume speed processing, the WR-400 counts a maximum of 3,000 coins and wraps 40 rolls per minute. The WR-80 counts a maximum of 1,600/minute and wraps 25/minute.

Easy to Operate - One Touch Control

Operating and changing the settings is fast and easy. Change the coin denomination with one button. Switch from counting mode to wrapping mode also with just a touch. For easy operation, Glory has developed a help guide displayed on the control panel.

Reliability for Maximum Uptime

Coins that are misshapen or odd-size are immediately separated to an offsort coin box to prevent jamming and time consuming interruptions.

Durable Design

The critical elements of a wrapper's durability are alignment, center control and frame design. Glory has developed a unified frame to reduce distortion and maximize durability. The performance of the WR-400 and WR-80 will outlast comparable coin wrappers / counters.

Options

Optional extra large hoppers, printer, coin roll holder, material detector, remote control and large paper roll stands are available for casinos, armored couriers, and other businesses that process bulk coins.

Optional extra large hopper

Specifications

	WR-400	WR-80
Counting speed:	3,000 coins/min. (max.)	1,600 coins/min. (max.)
Wrapping speed:	40 rolls/min. (max.)	24 rolls/min. (max.)
Hopper capacity:	8,000 coins (max.)	4,000 coins (max.)
Acceptable coins:	Max. 32 denominations Diameter: 15mm-40mm (0.6"-1.6") Thickness: 1.00mm-3.5mm (0.04"-0.15")	Max. 32 denominations Diameter: 15mm-40mm (0.6"-1.6") Thickness: 1.00mm-3.5mm (0.04"-0.15")
No. of coins wrapped in one roll:	Preset for each denomination	Preset for each denomination
Power source:	AC 100/240V±10% 50/60Hz	AC 100/240V±10% 50/60Hz
Outer Dimensions (WxDxH):	410mm x 580mm x 1,100mm (16"x22.8"x43.4")	410mm x 580mm x 1,010mm (16"x22.8"x39.8")
Weight:	180kg (399lbs)	170kg (375lbs)
Power consumption:	Less than 500W	Less than 500W
